Dear Producer:

Thank you for viewing this catalog for our 28th Annual Production Sale. We are selling 160 bulls (142 spring bulls and 18 Fall bulls) 30 registred spring open heifers, 20 spring commercial open heifers, and 20 registered, bred, fall pairs.

The bulls selling will be the deepest in quality and quantity that we have ever produced. All of the bulls selling will be DNA tested and their EPD's are genomically enhanced for greater accuracy. We have many sire groups available that are from some of the elite AI sires in the Angus breed. We have collected all of the performance weights and ultrasounded the bulls on January 26th. All of this data is in the catalog.

The females include an excellent group of registered heifers. These heifers will become, for you, some very good cows that will keep you profitable in the cattle business. We have been working hard on udder types and disposition in our cowherd and feel you will not be disappointed in your purchase of these females. The commercial heifers are also from registered cows that we have, but are from cows that we have used for recipient dams for our et program. These recipient cows are very good also, as you see they have raised many of the top bulls in our sale. The fall cow/calf pairs are a complete dispersal of our fall herd. They will sale as pairs and all cows are running with our new herd bull Connealy Automatic which we are extremely excited about. His pedigree and epds are listed with the fall cows. We will preg check these cows around the first of March.

Videos of these animals will be available on our website, Benoitangus.com or go to liveauctions.tv and view them their. We will be running all cattle through the ring to show their disposition and type at auction time.

Again, thank you for your interest in our program and if you have any questions, please give us a call. We welcome you to come visit us anytime before the sale to view these cattle and the dams that raised them.

Sincerely

Benoit Angus

Repeat Buyer Discount

To show our appreciation for the support of our loyal repeat customers over the years, we are offering a Repeat Buyer Discount. This discount will be 5% from your total purchase price if you purchased a bull in the prior year's sale. This discount will involve only the previous year's sale, not just any previous sale. If you did not purchase a bull last year, but purchased a bull this year, you will receive a 5% discount on our purchase in next year's sale should you decide to be a repeat customer. This will be an ongoing process that will continue in upcoming years. This discount does not pertain to the heifer lots or cow/calf pair lots.

COMMITMENT.

Raising quality registered Angus cattle takes commitment. As your genetic supplier, we take that seriously.

That's why we participate in MaternalPlus®. Through MaternalPlus, we devote extra time to tracking maternal traits beyond those normally required, ultimately targeting greater performance and predictability.

The data we choose to gather through this inventory-based program today sets the stage for reproductive and lifetime productivity tools tomorrow — tools to pioneer new ways of selecting the most profitable animals.

Herd improvement starts with smart decisions. A commitment to the female starts with MaternalPlus.

Repeat Buyer Discount

To show our appreciation for the support of our loyal repeat customers over the years, we are offering a Repeat Buyer Discount. This discount will be 5% from your total purchase price if you purchased a bull in the prior year's sale. This discount will involve only the previous year's sale, not just any previous sale. If you did not purchase a bull last year, but purchased a bull this year, you will receive a 5% discount on our purchase in next year's sale should you decide to be a repeat customer. This will be an ongoing process that will continue in upcoming years. This discount does not pertain to the heifer lots or cow/calf pair lots.

2016 Spring Registered Angus Heifers

These heifers are an excellent group that will make some great herd builders. Most of them are younger than the one's we kept and sent to Heartland in McKook, NE for breeding. The four older heifers in this sale are four that lost tags before weaning and we did a parentage test to verify and then decide to put in the sale. All are out of good uddered, quality cows that are still here producing. We would be happy to show you their dams if you like.
