ACCOMMODATIONS

Call Benoit Angus at (888) 870-2855

TRANSPORTATION

Airstrips for small planes are available in Smith Center, KS. If you need information, call (888) 870-2855. We will arrange for pick-up service from the airport in our area if notified before.

TERMS AND CONDITIONS

Cattle will sell under the suggested terms and conditions of the American Angus Association
(http://www.angus.org/Pub/suggest_sale_terms.pdf)

HERD HEALTH

The bulls were fertility tested on February 24th & 25th and scrotal measurements were taken then. The bulls in the sale have been pre-weaned and weaning vaccinated for respiratory disease. They have been poured and dewormed.

All potential carriers of AM, NH, CA & DD have been tested and all cattle will sell AMF-NHF-CAF-DDF.

All cattle are eligible for interstate shipment and will be accompanied by proper health certificate.

SALE BOOK UPDATE

A supplemental sheet will be available sale day with updated information. This sheet will take precedence over the sale book. We will post updates as soon as possible on our web-site.

LIVESTOCK INSURANCE

Jensen Livestock Agency, Sheila Jensen, (785) 262-1116

LOT NUMBERS

Ear tags on cattle correspond with lot numbers in this book.

DELIVERY

Free delivery. All bulls will be delivered free in Nebraska or Kansas, or we will keep them 30 days and you pick them up, your choice. We will start to deliver a week after the sale. You can take them home the day of the sale and we will give \$50 off each bull purchased. All bulls selling over \$5,000 outside of Kansas and Nebraska will be delivered to a central point.

GUARANTEE

All cattle sell with a first breeding season guarantee. Bulls selling are guaranteed for 90 days from first turnout against breeding injury. If a replacement bull is available, he will be provided. If a replacement bulls in not available, credit will be given in our next sale. Credit will be for the purchase price less volume discounts and salvage value of the injured bull, to be used for the purchase of one replacement bull. Please notify us as soon as possible should injury occur and prior to the injured bull being sold for salvage. All claims must be made prior to October 1, 2021. This is not a mortality insurance policy. Mortality insurance will be available sale day.

MEALS

Coffee and donuts in the morning.
Complimentary lunch will be served at 11:30 a.m.

Dear Producers,

Thank you for your interest in our 32nd Annual Production sale. We are selling 165 bulls this year and we feel this is the best group of bulls from top to bottom that we have raised. All bulls have been DNA tested by Angus GS and the epd's in the catalog are genomically enhanced. The epd's in the catalog were posted from the Friday update on February 12th. All weights, DNA, and ultrasound data are included in the epd's. Weights and ratios of each bull will be in the catalog and I will post the DNA percentile scores and the ultrasound data on our website, benoitangus.com, prior to the sale. Scrotal measurements, frame score measurements and semen testing will be checked by Dr. Ben Suschland on February 22 and 23rd and this data will be sent to the association before the sale date and also will be posted on our website. We are hoping to have videos on each bull selling a couple weeks prior to our sale if the weather will allow us to get this job done.

As I write this letter, we are in the middle of calving in early February and are going through one of the coldest periods that I have been around. Dad has stated he doesn't remember a cold snap that has lasted as long as this one in his lifetime either. We have been spoiled the last few years here in northern Kansas with mild weather for the most part, but with this frigid weather I am truly amazed and so proud of how these cows are mothering and the calves are jumping up and suckling within minutes of birth. Makes life so much easier when you calve outside in the open air although we may have several short eared bulls in next year sell. Angus have always been known for mothering ability and this has not changed here on our ranch. The Angus cow has always been the #1 focus here at Benoit Angus. Selection for mothering ability, fleshing ability, udder quality, and fertility are all top priority tools we select for with each breeding decision. We would love to have you come before the sale to view the bulls selling and the dam that raised them. We look forward to seeing you and thanks again for your interest in our program. If you are unable to attend the sale, you will be able to view the sale and bid online at CCI.live and we have a How to Bid Online help sheet on page 48 of this catalog. If you need help with this just give us a call and we can hopefully point you in the direction of an employee of CCI.

Sincerely,

The Benoit's

Doug, Chad & Everett

6737 or EMAW as we call him, was the top selling bull in the Gardiner sale in May of 2018. EMAW is an aggressive breeder with a numbers package that is as impressive as they come with actual performance data to match. Calving our first daughters and they are very attractive with excellent udder quality and super mothering. Progen ratios on first 65 calves, BR-99, WWR-103, YWR-105, IMF-113 and RE-99.

Plus One was our top selling bull in 2019 going to Brad Fahrmaier of Montana and Byrd Cattle Company of California and is now leased to Origen and ABS. One of high sellers at Origen in 2020. Plus One is a calving ease bull, combined with superior growth, carcass and maternal. Bulls selling are extremely thick with an attractive look. Full sisters to Plus One have sold for 200,000,65000, and 40,000. We have two sisters in production that are a couple of our best with one being the dam of Lot 99 in this sale, E&B Enhance 099.

Confidence Plus was our pick of the bulls at the 2014 Connealy Angus sale. Plus is one of the elite proven sires in the Angus breed with top calving ease, growth, maternal and carcass. His progeny are sought after with top selling bulls and heifers in sales across the country. A real game changer. Daughters in production for us are outstanding with beautiful udders, easy fleshing and highly productive.

Origen and ABS sire. Enhance is the number 1 sire of progeny registered by the AAA in 2020. His progeny have topped bull and female sales all over the country. His sons are long bodied with nice attractive profiles and superior numbers and extremely docile. Reports we have on his daughters are very good with excellent udder type.

*Recommended for heifers or cows.
 *A smaller framed Enhance-357 that will be a super heifer bull.
 *Big scrotal, and marbling with a top 1% \$Maternal.
 *Dam is like her name "Complete" with super maternal traits. ET full brothers sell as lots 101-108.

Repeat Buyer Discount

To show our appreciation for the support of our loyal repeat customers over the years, we are offering a Repeat Buyer Discount. This discount will be 5% from your total purchase price if you purchased a bull in the prior year's sale. This discount will involve only the previous year's sale, not just any previous sale. If you did not purchase a bull last year, but purchased a bull this year, you will receive a 5% discount on our purchase in next year's sale should you decide to be a repeat customer. This will be an ongoing process that will continue in upcoming years.

Zion was our 2nd high selling bull in 2019 purchased by Genex. Zion offers performance with powerful phenotype. Zion possesses moderate birth, with super weaning weights, excellent feedlot performance and daughters should be eye catchers and productive. Zion's dam is one of the best cows ever produced here. Her first calf was our high seller in 2016, E&B Sure Fire 741 going to Koupal Angus in South Dakota and Chad and Danny Simmilink in there bred heifer program here in Esbon.

The now deceased Southern Charm was a phenotype favorite at Origen in Montana by all who seen him. He was a top semen producer and has an exceptional scrotal epd. Was leader in sales at Origen in 2018 and ranked number 2 in 2019. Known for his fertility, slick hair, good feet, and easy fleshing with excellent maternal in his pedigree.

Cattlemen's Congress in Oklahoma City

2021 Angus Foundation Heifer Package was donated by Benoit Angus

Thank you to Wilks Ranch, TX for purchasing the 2021 Angus Foundation Heifer package.

~NOTES~

COMMITMENT.

Raising quality registered Angus cattle takes commitment. As your genetic supplier, we take that seriously.

That's why we participate in MaternalPlus®. Through MaternalPlus, we devote extra time to tracking maternal traits beyond those normally required, ultimately targeting greater performance and predictability.

The data we choose to gather through this inventory-based program today sets the stage for reproductive and lifetime productivity tools tomorrow — tools to pioneer new ways of selecting the most profitable animals.

Herd improvement starts with smart decisions. A commitment to the female starts with MaternalPlus.

Contact AGI at 816-383-5100 or agi@angus.org for more information.

ANGUS MEANS BUSINESS.

ANGUS
THE BUSINESS BREED
www.ANGUS.org

Driving the science of better breeding

There's little room for error in the cattle business. Producers need the most advanced information to make smart selection decisions, and Angus Genetics Inc. (AGI) provides it through genomic-enhanced expected progeny differences (GE-EPDs).

GE-EPDs have become the industry standard for herd improvement, building on decades of science-backed genetic evaluation tools originated and maintained through the American Angus Association®, home to the largest and ever-growing single-breed beef cattle database.

EPDs that traditionally contained all pedigree, performance and progeny information now also include results from available genomic, or DNA, tests. Breeders who use genomic technology give buyers access to AGI-generated GE-EPDs that provide:

- Increased predictability and decreased risk for young and unproven animals due to enhanced accuracy of EPDs
- Better characterization of genetics for difficult-to-measure performance traits (such as carcass traits, maternal traits and feed efficiency)
- The ability to make more rapid progress for traits that are important to you, due to:
 - more accurate selection
 - easier identification of genetic outliers
 - the ability to propagate young animals with confidence earlier in their lives

In fact, GE-EPDs on unproven animals have the same amount of accuracy as if they had recorded 10-36 calves, depending on the trait. That's valuable insight, offered regularly through the breed's weekly national cattle evaluation.

Trait	Progeny Equivalent	Trait	Progeny Equivalent
Calving Ease Direct	26	Heifer Pregnancy	17
Birth Weight	23	Calving Ease Maternal	20
Weaning Weight	27	Milk	36
Yearling Weight	23	Mature Weight	15
Dry Matter Intake	12	Mature Height	9
Scrotal Circumference	15	Carcass Weight	15
Docility	12	Yearling Height	17
Claw Set	10	Carcass Marbling	11
Foot Angle	10	Carcass Ribeye	17
		Carcass Fat	14

How do you know if EPDs are genomic-enhanced?

Ask your breeder, refer to the registration paper, or look for the AGI GE-EPD logo, Angus GS™ powered by partner Neogen GeneSeek or the HD50k by partner Zoetis. These images indicate animals for which low-density or high-density genomic testing has been conducted and incorporated by AGI into GE-EPDs

American Angus Association \$Value Indexes

Dollar value indexes, or **\$Values**, are a tool used to select for several traits at once based on a specific breeding objective. An economic index approach takes into account genetic and economic values as well as the relationships between traits to select for profit.

Maternal Weaned Calf Value (\$M), an index expressed in dollars per head, predicts profitability differences in progeny due to genetics from conception to weaning. \$M is built off of a self-replacing herd model where commercial cattlemen replace 25% of their breeding females in the first generation and 20% in subsequent generations. Remaining cull females and all male progeny are sold as feeder calves. Increased selection pressure on \$M aims to decrease overall mature cow size and improve foot structure and fertility while maintaining weaning weights consistent with today's production.

Weaned Calf Value (\$W), an index expressed in dollars per head, provides the expected difference in future progeny preweaning performance from birth to weaning. \$W assumes that producers retain 20% of their female progeny for replacements and sell the rest of their cull female and male progeny as feeder calves. Over time, increased selection pressure on \$W will increase pre-weaning growth through additional weaning weight and maternal milk with expenses adjustment for mature size and maternal milk.

Feedlot Value (\$F), an index expressed in dollars per head, is the expected average difference in future progeny performance for post-weaning merit compared to progeny of other sires. The underlying objective assumes commercial producers will retain ownership of cattle through the feedlot phase and sell fed cattle on a carcass weight basis with no considerations of premiums or discounts for quality and yield grade.

Grid Value (\$G), an index expressed in dollars per carcass, is the expected average difference in future progeny performance for carcass grid merit, including quality and yield grade attributes, compared to progeny of other sires.

Beef Value (\$B), an index expressed in dollars per carcass, facilitates simultaneous multi-trait genetic selection for feedlot and carcass merit. \$B represents the expected average differences in the progeny postweaning performance and carcass value compared to progeny of other sires. This index assumes commercial producers wean all male and female progeny, retain ownership of these animals through the feedlot phase and market these animals on a quality-based carcass grid.

Combined Value (\$C), an index expressed in dollars per head, includes all traits that make up both \$M and \$B with the objective that commercial producers will replace 20% of their breeding females per year with replacement heifers retained within their own herd. The remaining cull heifer and steer progeny are then assumed to be sent to the feedlot where the producers retain ownership of those cattle and eventually sell them on a quality-based carcass merit grid.

How to Bid Online

Tips and Tricks to Master Online Bidding

STEP 1. Use Chrome or Safari, a newer browser or download the CCI.live app at Google Play or Apple App store.

STEP 2. Open your app or go to the address of www.CCI.live in your browser. CCI.live can be used on a cell phone, tablet, laptop or desktop. Some older models may not be compatible and will show a yellow caution symbol if so.

STEP 3. Create an account and then request bidding credentials through CCI.live. Use the bank information listed on your check. Please use a correct phone and email address.

STEP 4. Once you are accepted for bidding credentials you will receive a text message and/or email notification. Proceed to "Get Buyer Number" on the actual sale page of your interest. Some sales may also require a passcode to obtain a buyer number. On these auctions, you will obtain passcodes from the sale office phone number for the specific auction you are interested in. Please closely read the terms!

STEP 5. You are ready to go! Make sure you understand, once you are logged in, have a buyer number and are watching the sale that you are on a highly sensitive web page. **Be careful when scrolling that you do not accidentally hit the bid button and watch children closely as they tend to grab cell phones and accidentally bid.**

TIPS FOR SUCCESSFUL BIDDING

- Make sure you have good service. Bidding and driving is not recommended. You should have two - three bars on your cellular devices. At home you should have an UPLOAD speed of 2 mg or more UP. Use this site to test your internet: www.speedtest.net.

REFRESH YOUR SCREEN AT SALE TIME

If you have logged in over an hour prior to sale time, you may need to login again. DO NOT let the computer set idol and then return and try to bid, the website may have logged you out.

CCI.live does not accept payment, you will pay the sale management, farm or ranch direct.

Help videos can be found at www.CCI.live
